

## **Autosoft Journal Instructions for Special issues**

**2016 Impact Factor = 0.644**

**July 2017**

Recognized and distinguished scientists, engineers and technologists interested in preparing a proposal for a special section of this Journal are encouraged to consider the following points before their proposal can be reviewed:

- 1) Only focused relevant topics are considered, avoid too general topics.
- 2) Guest editors need to be represented from a good segment of the global community, i.e. Asia, Europe, America, Australia, etc.
- 3) No sole special section can be attached to a single conference.
- 4) Biographies of all guest editors are needed.
- 5) Guest editors are not to submit their own papers in the section
- 6) At least 3 meaningful reviews are needed not all from the same country or area of the world.
- 7) Limit the size of the papers to 12 pages including authors' bios and photos.
- 8) Accepted papers face \$830 fee for 12 pages and if there is a lack of excellent English, there will be a \$ 100 fee for proofing it to stand at an archival journal. Extra pages are discouraged and will be assessed \$100 per extra page.

- 9) Accepted authors will get free access to the Journal's online database (all 23 volumes).
- 10) Proposal will undergo review and allow 8 weeks.
